J.T. Cullen Company, Inc. Welcomes Patrick E. Kelley as New President

Fulton, IL - J.T. Cullen Company, Inc. (JTC) a trailblazing leader in the fabrication solutions industry, is thrilled to announce the appointment of Patrick E. Kelley as its new President, effective July 1st, 2024. With a proven history of driving growth and innovation in the Automation sector, Mr. Kelley brings a wealth of experience and expertise that will undoubtedly propel JTC to new heights.

Mr. Kelley will succeed David Jones, who is retiring after 20+ years of exemplary service to JTC. "On behalf of the entire JTC team, we extend our heartfelt appreciation to Mr. Jones, for his exceptional leadership and contributions to the company's growth and success over the past two decades," added Patrick. "Under his leadership, JTC has achieved significant milestones and cemented its position as a leader in the large-format fabrication industry."

We are delighted to welcome Mr. Kelley as our new President. In his previous role as General Manager of Invio Automation, he successfully facilitated multiple improvements and achievements, most notably increasing the operating margin from 2% to 20% over a two-year span. His commitment to safety, quality, and lean initiatives aligns perfectly with our core values, making him an excellent cultural fit for the organization.

Mr. Kelley's enthusiasm for embracing modern technologies and fostering a culture of innovation will be instrumental in driving JTC's continued growth and market leadership. With his clear direction, JTC is poised to tackle the challenges of the ever-evolving fabrication landscape and under his guidance, we are confident that we will reach new heights and create lasting value for all stakeholders.

"I am truly honored to join the exceptional team at JT Cullen," said Mr. Kelley. "JT Cullen has established itself as a pioneering force in the fabrication industry, and I look forward to building upon its legacy of excellence. He continues, "As the company transitions to new leadership, the organization remains committed to providing exceptional support, resources, and quality of workmanship that our customers have come to expect. We will move forward together, embracing innovation, capitalizing on new opportunities, and charting a path of sustained success."
